SPECIAL CORRESPONDENCE. TO THE SERIES EDITOR.

THE LATEST FROM WASHINGTON.

WASHINGTON, D. C., September 13, 1867. There never was a time when the National Capital was more full of rumors or the hotel more full of rumormongers than at present.

Every day there is some new excitement or Presidential candidate turning up, and some old one turning down. Newspaper men are in a ferment and the readers in a state of fermentation.

The fact is, there is a fierce political storm brewing, the brewer is Andy Johnson, and the White House is the mash-tub. The straws (in the mouths) of

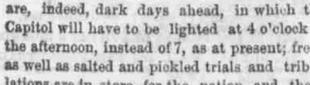

JOHNSON, FLORENCE, AND BLACK show plainly which way the wind blows.

While the President is thus under the influence of "Tom" and "Jerry," there must be a row with Congress.

On one side is a President firm in his purposes, but very shaky in his actions. On the other side is a Congress shaky in its purposes, but firm in its actions, as far as they go.

Congress is trying to throw cold water on the President, who never deals in the article, if he can help it, and the President is trying to infuse his spirit into the Cabinet to nullify the Congress water; thus we have a pretty kettle of fish—and they most all "snickers." If these two contending powers are in earnest, there are, indeed, dark days ahead, in which the Capitol will have to be lighted at 4 o'clock in the afternoon, instead of 7, as at present; fresh as well as salted and pickled trials and tribulations are in store for the nation, and there is abundant cause for the gloomy forebodings which the conservatives say, are in the bonded warehouses of the radicals.

In the confusion and excitement of the hour, it is no easy matter to get into the nests where these plots and counterplots are said to be hatching, and indeed when any of the nests are found, there are so many

POCKET PISTOL, and treat the crowd to its contents, which will beget such a spirit of good fellowship that the Senate will immediately re-treat, and then the thing is done.

Black will then take possession of the Senate, and run it by getting volunteers in the city, and Florence will run the House in the same manner. Laws will be made disfranchising Ben Butler and Bill Kelley, and putting Summer in Fort Monroe.

Sickles will be tried for cruelty to Confederate prisoners, and hung on the same gallows that hung Wm. William McMullin, of your city, will be made Secretary of State, while Mr. Seward will be sent Consul to Sitka.

Mr. Welles will be ordered to report on board the receiving ship at the Philadelphia Navy Yard, and Hamill, of Pittsburg, will be given the position of Secretary of the Navy, and will proceed at once to reduce the ships of war to a peace footing, inaugurating races every Monday at the different naval stations among the ships of rival nations.

McCooie, of St. Louis, the champion of light weights, will be offered the position of Secretary of War, while Grant will be sent out to fight Spotted Tail on the Plains, as his great forte seems to be in fighting where it is desirable to kill largely.

This, I am satisfied, is the programme at present of the President, Mr. Black, and Mr. Florence. The reporter of the New York Herald called to see me to-day, and I gave him this outline, which he fitted up for his paper, but this account I send you I think is the best.

I shall continue to hang around the back gate, and if I learn anything more reliable I will make no delay in sending it on.

YOUR OWN CORRESPONDENT.

WANTED—AN ACTIVE MAN TO ROLL in a Mill. Address, etc.

Here is a chance for some unemployed acrobat. But it does not state how much rolling a fellow is expected to do in a day; neither, whether it is all on a level or partly down hill.

President, in the language of the ring, "mean mischief." I have talked with the backers of the President about the coming match, and they say their man and money are ready. They seem confident that their pet will be on his pins at the call of time, and will be found to be an ugly customer. He will strike out with his right, follow up with his left, bear down his adversary, and crowd him to the ropes. On consulting with the trainers and backers of Congress, I find them equally sanguine. They speak of the weight of their champion, the size of his manly, never known to come up groggy in any encounter, but always smiling, and will make an effort to get his man

IN CHANCERY on the first round. So you see, the way the thing stands now, we may expect a pretty fight, and some nice punishment all round.

The President has gone into training already, and Congress will soon follow. The first forfeit, I understand, has been put up.

In the light to come for the championship, the rules of the P. R. will be in a measure set aside. The parties claim the right to strike below the belt, or any place they please. There will be no referee, consequently the fight will be kept up irrespective of foul blows or back throws, until the defeated adversary is unable to come to the scratch at the call of time; not till then will the sponge be thrown up by the official sponsors.

The challenge lately issued by the President, under the name of an Amnesty Proclamation, is regarded by the trainers of Congress as a decided invitation to try the prowess of their chicken in the ring, and they mean to do it.

Taking it for granted that the radical leaders are in earnest, and that their loud threats are not mere boastings, it becomes a matter of interest to know how the President will act in the event of his attempted impeachment. I am reliably informed that he will walk into the House while in session, put on the lights, then put out the livers on the Government, which, with his Cabinet in fighting trim, led by Grant in person, he is perfectly capable of doing. He will next walk over to the Senate chamber, tearing down in his way half a dozen of those monster national transparencies in the rotunda called historical paintings, when, flushed with victory, the Senators will immediately fraternize with him and his conquering attendants.

Each one of the Cabinet will then draw his

UNIVERSITY OF PENNSYLVANIA (DEPARTMENT OF ARTS) SEPTEMBER 4, 1867. The Trustees of the University have authorized the Faculty of Arts to make certain changes in the course of studies required for the Degree of Bachelor of Arts.

This will enable all who desire such a liberal education, as well as those who desire a professional or other pursuit, to secure it, under such a liberal education, which will offer to the student all the advantages either of the system which formerly obtained, or of that generally regarded as the more practical.

While all the advantages of a thorough scientific and classical course will continue, as heretofore, to those who desire it, the new plan provides that the student, at the beginning of the Junior year, may elect in the place of advanced Greek and Latin studies, and the higher branches of Mathematics and Physical Science, a more extended course in the English Language and its Literature, in History, in Science as applied to the useful arts, and in the French, German, Italian, and Spanish Languages.

The object of the Trustees in making these changes in the College course, is to provide in the University full and complete opportunities for acquiring an education that will either, on the one hand, satisfy those who desire to pursue the highest attainments in the study of the ancient Languages and their literature, or Physical Science, and of Pure Mathematics; or, on the other, to meet the wishes of those who desire to be fitted, by a thorough practical education, for an earlier entrance into active business life.

Circulars, showing all the details of the College courses, may be obtained, after September 9, from the Junior at the University Building, and additional information or advice in regard to the selection of studies will be given by the Provost in his room. The tuition fees are thirty-five dollars per term, payable in advance, and the College year is divided into three terms, the first beginning on Monday the 11th of September.

By order of the Trustees: CADWALADER RIDDER, Secretary. 5 1/2 1/2

TOBACCO. ONE HUNDRED DOLLARS A BAY CENTURY TOBACCO, IN TIN FOIL.

In order to overcome a natural prejudice that always exists against New York Tobacco, and being fully convinced that where the CENTURY brand is once used its superior qualities will be recognized, we have adopted the plan of putting money in the papers as an extra inducement to consumers to give it a trial.

Instead of a single Hundred Dollar Note in one paper, as we have done heretofore, we have concluded to vary the amount, but in all cases to allow the aggregate to be the same, viz:— ONE HUNDRED DOLLARS A BAY

ON MONDAYS we will place a HUNDRED DOLLAR (One Paper) NOTE in a paper of Century

ON TUESDAYS we will place in each of TWO papers (Two Papers) of Century a FIFTY DOLLAR NOTE

ON WEDNESDAYS we will place in each of FIVE (Five Papers) papers of Century a TWENTY DOLLAR NOTE

ON THURSDAYS we will place in each of TEN (Ten Papers) papers of Century a TEN DOLLAR NOTE

ON FRIDAYS we will place in each of TWENTY (Twenty Papers) papers of Century a FIVE DOLLAR NOTE

ON SATURDAYS we will place in each of FIFTY (Fifty Papers) papers of Century a TWO DOLLAR NOTE. P. & G. LOHLEARD, B. A. VAN SCHAIK, 8 1/2 1/2 1/2
